ed by us respectively.

YOUNGLOVE & SULLIVAN. H. C. HUNTINGTON.

NEGLECT OF WESTERN INTERESTS. - We copy from the Cincinnati Commercial, a neutral paper, the following sensible article on Western Interests. Let it be remembered that the present Administration is utterly opposed to the improvement of the Western Waters, and that Gen. Cass is also opposed to these improvements, and that if we ever succeed in rendering our condition at all better, we must put some one in power who is not pledged to veto bills for internal improvements. Gen. Tav thanks to the happy couple, and offer our best wishes for is determined that the will of the people for their prosperity and happiness through all time shall in this, as in all other matters, be carried out, The Commercial says: -- "Mr. Westcott's report to Congress shows, that on an average, one million of dollars worth of property is lost annually on the Florida reefs and keys, by vessels being wrecked on that dangerous coast. In 1816 fifty-three vessels were wrecked on the reefs and keys of Florida. Notwithstanding Florida has been a part of the United States for twenty-seven years, no original American chart has yet been made of its dangerous coast, OFFERS his Professional Services to the Ladies chart has yet been made of its dangerous coast, although nearly the whole trade of the great central basin passes through the narrow channel which separates Florida from Cuba. Navigators are forced to depend on old Spanish charts, and are forced to depend on old Spanish charts, and those made by Great Britain from 1763 to 1784 and compiled from them by Blunt and others. To those who have observed the aggregate appropriations for the survey of coasts, improving harbors, roadsteads &c., without noticing the parts of our coast where the money was,according to law, to be expended, the fact that a survey and chart of the reefs and keys of Florida has not been made, will, at first, appear incredible, but it is consistent with the whole course of the General Government towards the West. Whilst millions are annually appropriated for the purpose of facilitating and protecting the commerce of the East, scarcely a sortment oct 5 M. W. FOSTER.

| BOOLS AND SHOES. | House they enter. Every family should possess at least one of these Annuals. His Almanac for 1849 is now ready for distribution, of which he designs to dollar is appropriated for similar purposes for the benefit of the central basin. We do not remember the exact estimate of loss of property on the western rivers, in consequence of ob-structions, which might readily be removed, structions, which might readily be removed, structions, which might readily be removed, structions of dollars of dollars statement of the condition of the Branch will be sub-statement of the condition of the Branch will be sub-the same time, to send a copy of their "BUSINESS" annually. When to this is added one million lost on the coast of Florida, the amount lost annually to the people depending for their trade on the great rivers of the south-west, amounts to two million of dollars. Whilst the West, in consequence of the partial legislation of the General Government, suffers this heavy loss annually, it pays its pioportion, aye, and more than its proportion to the general treasuto the new three story brick on Mains treet, in Celebrated Family Medicines. ry, which, in justice, should be expended for about ten days, where his old customers are invited oct 3-3w

there paid and added to the cost of the goods when sold to the western merchants. Whether these goods are lost on the Florida keys, in part of the North East quarter, of the South West the Mississippi, or reach their destination, the South of Range, No. ten West.

TERMS OF SALE.—One half of the purchase money paid the duties on them; hence the West pays not only duties on the dutiable goods consumed, but duties on the goods intended for the purchase money in cash, and the remaining half in three months from the day of sale, the purchaser giving note with approved security and waiving all relief from valuation Laws med, but duties on the goods intended for the West, which are lost before reaching their destination. We say all these losses are on ac

count of the West because if goods are insured in the East, the premium paid is at least equal vey and chart of the coast of Florida, or clear the Mississippi of its tributaries of obstructions lished on Tuesdays, Thursdays and Saturdays, at as it has the navigable part of the Delaware and other rivers in the East, goods, destined for the West should not be taxed with duties until they reach their ulterior destination .-The boast of certain politicians, that the East pays in duties into the treasury nearly the whole revenue of the country, may gull some, but the assertion is an insult to all intelligent men. There is no man acquainted with the laws of trade, but knows the customer pays the duty on imported good. The duties paid by the importer, are part of the first cost of goods, because by our custom-house laws, the duty has to be paid before the goods pass into the hands of the importing merchant. That 5.00 our custom-house laws are framed to the detriment of the West, we will show in some futhe attention of the West to the real interests of the central basin. We have no wish to make a sectional question of this matter, nor do we think there is any occasion to do so. Our own representatives have been recreant to their duty, whilst the representatives of the Atlantic slope, have attended to the interests of their constituents. Let the people of the slope to watch over them.
